Payment, Time, & Location

Payment at Khesed is based on an ecosystem model according to position. We center equity. We understand that what impacts one person impacts the whole. Historically, workers with marginal identities have been financially harmed by systems of pay inequity. Because of this, equity at Khesed looks like everyone on the same pay structure receiving the same, hourly rate. Raises are given out equitably when there is budget surplus.

Amount of Contracted Time per Week: 10 clinical hours

If all contracted hours are used, this equates to:

- \$27,040 per Year
- \$2,253.33 per Month
- \$1,126.67 per Paycheck*
- \$52 per Hour

*Khesed pays on semi-monthly payment terms which pays on the 15th and last day of each month. The pay periods end on the 5th and 20th of each month.
